

19th February 2022 – Covid Guidance

In light of the current easing of Covid restrictions the Elders and deacons would recommend a cautious approach going forward. We do appreciate that in a church the size of Scrabo there are a range of views with regard to guidelines. However, whilst it is no longer a legal requirement to wear masks, we recognise there are those, who feel vulnerable and anxious, and will prefer to do so. It is our desire to continue to demonstrate mutual respect, love and care. Therefore, we will still be arranging for sanitising stations and masks at the entrances for those who wish to avail of them. Socially distanced seating will also still be available for those who request it in advance by contacting Johnny Hagan.

We would appreciate your patience and understanding as we seek to provide a welcoming, safe environment in which we can worship and serve our Lord Jesus together.
